TURKISH WIND ENERGY ASSOCIATION TWEA

Turkish Wind Energy Association (TWEA) which was established by the Council of Ministers on 10 February 1992 and with 92/2752 number, is a non-profit association works in coordination with Ministry of Energy and Natural Resources (MENR), Turkish Electricity Transmission Company (TEİAŞ) and Energy Market Regulatory Authority (EMRA).

In the field of wind energy in Turkey. TÜREB is the umbrella organization, covers the entire value chain and takes an active role in all legislation related to the wind sector.

The 14th Board of Management acceded in the last general assembly held in March 2019.

TWEA, member of Wind Europe and Global Wind Energy Council, is the most powerful non-governmental organization in Turkey.

239 WPP's in Operation

239

18 Public Enterprise,
114 Corporate, 112 Individual and
75 Student Members

114

9.305 MW Installed Capacity

9.305

Our Members Have 59% of Installed
Wind Capacity with 5.497 MW

5.497

3.591 Wind Turbines in Operation

3.591

In The Wind Energy Industry 18.000
Employment is Provided By Our
Members

18.000

BENEFITS OF MEMBERSHIP

Public Representation and Legislation Solutions

Information before and during regulatory amendments and exchange of views

Taking an active role in regulatory working groups

Priority invitation to private public meetings

International Network

European Wind Energy Association (WindEurope)

Global Wind Energy Council (GWEC)

Participation in TWEA pavilion at international fairs and events

B2B meetings with global stakeholders

Instant Access To Sectoral Information

Weekly sector bulletin

Detailed statistics report

Latest developments in global markets

Brand Promotion and Visibility

TÜREB Magazine, Website and Social Media

Benefits from visibility on TWEA's communication channels

Partnership opportunities at TWEC and other TWEA events

Investment Advisory

Providing sector-related information to potential investors

Networking with relevant public institutions and organizations
